THE FUND AT A GLANCE

Investment Objective. The Fund seeks long-term capital appreciation.

Principal Investment Strategy. The Fund invests primarily in equity securities of companies traded in developed markets throughout the world, including the United States. The Fund will be diversified among a number of different countries (at least three) and will invest at least 40% of its total assets in foreign securities. The Fund invests primarily in the equity securities of companies principally traded in the regions that are included in the Morgan Stanley Capital World Index ("MSCI World Index"). The Fund may invest in companies across all market capitalizations, but the Fund will primarily invest in companies with market capitalizations in excess of US\$ 2 billion at the time of investment. Additionally, the Fund may invest up to 10% of its total assets in securities of companies principally traded in emerging market countries. The Fund's subadviser, IronBridge International Ltd. ("IronBridge International"), chooses companies that it believes have the potential to exceed economic performance levels on which market valuations are premised. In constructing a portfolio for the Fund, IronBridge International selects stocks using an economic return framework, a valuation model that uses cash flow rather than traditional accounting measures such as earnings and book value to identify attractively-priced companies. As a result of this methodology, the Fund invests in both growth and value-style stocks.

IronBridge International considers developed markets to be the markets of countries included in the MSCI World Index, which consists of the following 23 developed market country indices: Australia, Austria, Belgium, Canada, Denmark, Finland, France, Germany, Greece, Hong Kong, Ireland, Italy, Japan, Netherlands, New Zealand, Norway, Portugal, Singapore, Spain, Sweden, Switzerland, the United Kingdom and the United States. Emerging market countries are considered to include most other countries throughout the world.

Principal Risk Factors. The main risks of investing in the Fund are:

Market Risks. The Fund's investments are subject to market risk, which may cause the value of the Fund's investments to decline. If the value of the Fund's investments goes down, you may lose money. The share price of the Fund is expected to fluctuate. Your shares at redemption may be worth less than your initial investment.

Stock Selection Risks. The stocks selected for the Fund may decline in value or not increase in value when the stock market in general is rising.

Equity Securities Risks. The Fund invests primarily in common stocks and other equity securities. Common stocks and other equity securities generally increase or decrease in value based on the earnings of a company and on general industry and market conditions. A fund that invests a significant amount of its assets in common stocks and other equity securities is likely to have greater fluctuations in share price than a fund that invests a significant portion of its assets in fixed income securities.

Foreign Securities Risks. The Fund will have a substantial investment in securities of companies principally traded in foreign countries. Foreign investments involve additional risks, including less liquidity, currency-rate fluctuations, political and economic instability, differences in financial reporting standards and less strict regulation of the securities markets.

Emerging Markets Risks. The Fund may invest up to 10% of its total assets in securities of companies principally traded in emerging markets. The risks of foreign investments typically are greater in emerging markets. Less developed countries may have smaller securities markets and lower trading volumes, which may lead to greater price volatility. These countries may have less developed legal and accounting structures and are more likely to experience high levels of inflation, deflation or currency devaluations, which could adversely affect their economies and securities markets.

THE FUND AT A GLANCE *(continued)*

Liquidity Risks. Liquidity risk is the risk that certain securities may be difficult or impossible to sell at the time and price that IronBridge International would like to sell. IronBridge International may have to lower the price, sell other securities instead or forego an investment opportunity, any of which could have a negative effect on the Fund's management or performance.

Management Risks. The Fund is actively managed by IronBridge International using an economic return framework. There is no guarantee that this methodology or other investment techniques used by IronBridge International will produce the desired results.

Growth and Value Investing Risks. The Fund invests in both growth and value-style stocks. Investors often expect growth companies to increase their earnings at a certain rate. Failures by such companies to meet these expectations may result in sharp declines in the prices of these stocks, even if earnings do increase. In addition, growth stocks typically lack the dividend yield that can cushion stock prices in market downturns. Value stocks may never increase in price or pay dividends as anticipated by IronBridge International, or may decline even further if the market fails to recognize the company's value, if the factors that IronBridge International believes will increase the price do not occur or if a stock judged to be undervalued is actually appropriately priced.

Currency Risks. Investments in foreign securities denominated and traded in foreign currencies involve additional risks. The value of the Fund's foreign securities as measured in U.S. dollars may be affected unfavorably by changes in foreign currency exchange rates. In addition, the Fund may incur costs in connection with conversions between various currencies.

Region or Sector Risks. The Fund may invest a higher percentage of its total assets in a particular region or sector of international markets. In such a case, changes affecting that region or sector may have a significant impact on the Fund's overall portfolio.

Recent Market Conditions

During 2008 and 2009, U.S. and international markets have experienced dramatic volatility. The securities markets have experienced substantially lower valuations, reduced liquidity, price volatility, credit downgrades, increased likelihood of default and valuation difficulties. As a result, many of the above risks may be increased. The U.S. and foreign governments have taken various steps to alleviate these market concerns. However, there is no assurance that such actions will be successful. Continuing market problems may have adverse effects on the Fund.

Who Should Invest. The Fund is suitable for long-term investors only and is not designed as a short-term investment vehicle.

The Fund may be an appropriate investment for you if you:

- Seek long-term capital appreciation; and
- Want to include a global core fund in your portfolio.

Performance of the Fund. Performance information for the Fund is not included because the Fund does not have one full year of calendar performance.

("ICM" or the "Adviser"), and the Company, ICM has agreed to waive its management fee and/or reimburse the Fund's operating expenses to the extent necessary to ensure that the Fund's total operating expenses do not exceed 1.00% of the Fund's average daily net assets. The expense cap agreement will continue in effect until October 31, 2010 with successive renewal terms of one year unless terminated by ICM or the Company prior to renewal. "Other Expenses" are presented before any waivers or expense reimbursements.

Example

The following example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds. The example assumes that you invest \$10,000 in the Fund for the time periods indicated and then redeem all of your shares at the end of those periods. The example also assumes that your investment has a 5% return each year, that your dividends and distributions have been reinvested, that the Fund's operating expenses remain the same each year and that ICM's fee waiver/expense reimbursement discussed above will not continue beyond October 31, 2010. Although your actual costs may be higher or lower, based on these assumptions, your costs would be as follows:

<u>Fund</u>	<u>1 Year</u>	<u>3 Years</u>
IronBridge Global Focus Fund	\$102	\$433

PRINCIPAL INVESTMENT STRATEGY

The Fund invests primarily in equity securities of companies traded in developed markets throughout the world, including the United States. The Fund will be diversified among a number of different countries (at least three) and will invest at least 40% of its total assets in foreign securities. The Fund invests primarily in the equity securities of companies principally traded in the regions that are included in the MSCI World Index. Additionally, the Fund may invest up to 10% of its total assets in securities of companies principally traded in emerging market countries. The Fund may invest in companies across all market capitalizations, but the Fund will primarily invest in companies with market capitalizations in excess of US\$ 2 billion at the time of investment. IronBridge International chooses companies that it believes have the potential to exceed economic performance levels on which market valuations are premised.

IronBridge International considers developed markets to be the markets of countries included in MSCI World Index, which consists of the following 23 developed market country indices: Australia, Austria, Belgium, Canada, Denmark, Finland, France, Germany, Greece, Hong Kong, Ireland, Italy, Japan, Netherlands, New Zealand, Norway, Portugal, Singapore, Spain, Sweden, Switzerland, the United Kingdom and the United States. Emerging market countries are considered to include most other countries throughout the world.

Equity securities in which the Fund may invest include: common stocks; preferred stocks; warrants to purchase common stocks or preferred stocks; and securities convertible into common or preferred stocks, such as convertible bonds and debentures rated Baa or higher by Moody's Investors Service or BBB or higher by Standard & Poor's or Fitch Ratings.

The Fund may invest up to 100% of its total assets in cash and short-term fixed income securities as a temporary defensive position during adverse market, economic or political conditions, or in other limited circumstances, such as in the case of unusually large cash inflows or redemptions. When so invested, the Fund may not achieve its investment objective.

INVESTMENT PROCESS

As a global core fund, the Fund invests in both value and growth stocks as a result of the IronBridge International methodology. In selecting stocks, IronBridge International utilizes an economic return framework, a valuation model that uses cash flows rather than traditional accounting measures such as earnings and book value to identify attractively priced companies. The first phase in the decision-making process involves screening a broad universe of approximately 2,500 global stocks with a market capitalization in excess of \$2 billion at the time of investment, to determine which look most promising based on analysis of several key determinants of success, such as capital investment, credit worthiness and sales momentum. From there, IronBridge International evaluates approximately 400 companies, with a focus on each company's stage in its life cycle and level, trend and sustainability of economic returns. This results in a potential buy list of approximately 200 well-managed companies which are further evaluated to determine which stocks are most attractively priced. Following additional analysis of accounting numbers, financial statement data and recent corporate news, IronBridge International arrives at a target price for each stock and makes risk reward comparisons between all potential holdings. The portfolio is generally constructed from approximately 40 to 65 issues with close attention paid to the sector, region and life cycle weightings of the MSCI World Index. Stocks are sold or positions are reduced when they reach the target price, when there is a significant change in the economic return trend, or when a position reaches the portfolio limit as determined by IronBridge International.

FUND MANAGEMENT

Board of Directors. Under the laws of the State of Maryland, the Board of Directors of the Company (the "Board of Directors") is responsible for managing the Company's business and affairs. The Board of Directors also oversees duties required by applicable state and federal law.

FUND MANAGEMENT (continued)

The Company has entered into an investment advisory agreement with ICM pursuant to which ICM supervises the management of the Fund's investments and business affairs, subject to the supervision of the Company's Board of Directors. ICM has entered into a subadvisory agreement with IronBridge International under which IronBridge International serves as the Fund's portfolio manager and, subject to ICM's supervision, manages the Fund's portfolio assets.

Adviser. ICM is the Fund's investment adviser, which supervises the management of the Fund's portfolio by IronBridge International. ICM was founded in 1999 and is located at One Parkview Plaza, Suite 600, Oakbrook Terrace, Illinois 60181. In addition to providing investment advisory services to the Fund, ICM serves as subadviser to two other Frontegra Funds, the Frontegra IronBridge Small Cap Fund and Frontegra IronBridge SMID Fund, which are advised by Frontegra Asset Management, Inc. ("Frontegra") and not discussed in this Prospectus. Additionally, ICM serves as investment adviser to pension plans, endowments, foundations and high net worth clients. As of June 30, 2009, ICM had approximately \$5.5 billion under management. ICM and IronBridge International are affiliates.

A discussion regarding the Board of Directors' basis for approving the investment advisory agreement is included in the Company's annual report for the period ended June 30, 2009. A discussion regarding the Board of Directors' basis for approving the subadvisory agreement will be included in the Fund's semi-annual report for the period ending December 31, 2009.

Advisory Fees. Under the investment advisory agreement, the Fund compensates ICM at the annual rate of 0.85% of the Fund's average daily net assets. Pursuant to an expense cap agreement between ICM and the Company, ICM has agreed to waive its management fee and/or reimburse the Fund's operating expenses to the extent necessary to ensure that the Fund's total operating expenses do not exceed 1.00% of the Fund's average daily net assets. The expense cap agreement will continue in effect until October 31, 2010, with successive renewal terms of one year unless terminated by ICM or the Company prior to any such renewal. The expense cap agreement has the effect of lowering the overall expense ratio for the Fund and increasing the Fund's overall return to investors during the time any such amounts are waived and/or reimbursed. Additionally, ICM has assumed certain fees and expenses relating to the start up and ongoing operation of the Fund pursuant to a sub-administration agreement, described below, entered into by and among the Company, ICM and Frontegra.

IronBridge International. IronBridge International is located at Beaumont House, Beaumont Mews, 37 Marylebone High Street, London, United Kingdom, W1U 4QE. Under the subadvisory agreement, IronBridge International provides continuous advice and recommendations concerning the Fund's investments. ICM executes portfolio transactions based on these recommendations on behalf of IronBridge International and is responsible for selecting the broker-dealers who execute the portfolio transactions. IronBridge International is compensated by ICM for its investment advisory services to the Fund and to other accounts. Pursuant to this arrangement, ICM pays IronBridge International a fee equal to the aggregate of costs and expenses incurred by IronBridge International in providing advisory services to ICM plus an additional amount based on a percentage of such expenses. In addition to providing investment advisory services to the Fund, IronBridge International serves as investment adviser to pension plans, endowments, foundations and other institutional investors. As of June 30, 2009, IronBridge International had approximately U.S. \$3.3 billion under management.

FUND MANAGEMENT (continued)

If you purchase Fund shares through a Financial Intermediary, you may be subject to different fees or policies than those set forth in this Prospectus. From time to time, the Distributor or an affiliate may enter into arrangements with brokers or other Financial Intermediaries pursuant to which such parties agree to perform sub-transfer agent, record-keeping, administrative or other services on behalf of their clients who are shareholders of the Fund. Pursuant to these arrangements, the Distributor or an affiliate may make payments to Financial Intermediaries for services provided to clients who hold shares of the Fund through omnibus accounts. In some circumstances, the Fund may directly pay the intermediary for performing transfer agent and related services, provided that the aggregate fee does not exceed what the Fund would pay the Transfer Agent if the intermediary's clients were direct shareholders of the Fund. In addition, the Distributor or an affiliate may pay additional compensation to certain Financial Intermediaries. Under these arrangements, the Distributor or an affiliate may make payments from their own resources, and not as an additional charge to the Fund, to a Financial Intermediary to compensate it for distribution and marketing services, including the opportunity to distribute the Fund. For example, the Distributor or an affiliate may compensate Financial Intermediaries for providing the Fund with "shelf space" or access to a third party platform or fund offering list or other marketing programs, including, without limitation, inclusion of the Fund on preferred or recommended sales lists, mutual fund "supermarket" platforms, other formal sales programs and other forms of marketing support. The amount of these payments is determined from time to time by the Distributor or an affiliate and may differ among such Financial Intermediaries based upon one or more of the following factors: gross sales, current assets, the number of accounts of the Fund held by the Financial Intermediaries or other factors agreed to by the parties. The receipt of (or prospect of receiving) such compensation may provide the intermediary and its salespersons with an incentive to favor sales of Fund shares, or a particular class of those shares, over other investment alternatives. You may wish to consider whether such arrangements exist when evaluating recommendations from an intermediary.

YOUR ACCOUNT

How to Purchase Shares. Shares of the Fund are sold on a continuous basis at net asset value ("NAV"). The Fund's NAV is determined as of the close of trading on the New York Stock Exchange (the "NYSE") (generally 4:00 p.m., Eastern Time) on each day the NYSE is open. The NAV is determined by adding the value of the Fund's investments, cash and other assets, subtracting the liabilities and then dividing the result by the total number of shares outstanding. Your purchase price will be the Fund's NAV next determined after the Fund receives your request in proper form. The Fund does not consider the U.S. Postal Service or other independent delivery services to be its agents. Deposit in the mail or with a delivery service does not constitute receipt by the Transfer Agent. A confirmation indicating the details of the transaction will be sent to you promptly. Shares are credited to your account, but certificates are not issued. However, you will have full shareholder rights.

Minimum Initial and Subsequent Investments. The Fund's minimum initial investment is \$100,000 and the minimum subsequent investment is \$1,000. Investments may be made by mail or wire. The Fund reserves the right to change or waive these minimums at any time. Investment minimums may also be waived or reduced at the Funds' discretion for certain registered investment advisers, broker-dealers, fee-based programs at broker-dealers and individuals accessing accounts through registered investment advisers. You will be given at least 30 days' notice of any increase in the minimum dollar amount of purchases.

You may purchase shares of the Fund by completing an application and mailing it along with a check payable to "Frontegra Funds, Inc." to: Frontegra Funds, Inc., c/o U.S. Bancorp Fund Services, LLC, P.O. Box 701, Milwaukee, Wisconsin 53201-0701. For overnight deliveries, please use 615 East Michigan Street, Third Floor, Milwaukee, Wisconsin 53202-5207. To prevent check fraud, the Fund will not accept third party checks, Treasury checks, credit card checks, traveler's checks or starter checks for the purchase of shares. The Fund is unable to accept post dated checks, post dated on-line bill pay checks, or any conditional order or payment. Purchases must be made in U.S. dollars and all checks

In the event a shareholder is unable to make the Fund whole in such a case, ICM will generally be responsible for any losses, with the right to seek indemnification or contribution from other parties. All applications to purchase shares of the Fund are subject to acceptance by the Company and are not binding until so accepted. The Company reserves the right to reject an application in whole or in part.

Alternatively, you may place an order to purchase shares of the Fund through Financial Intermediaries, who may charge a transaction fee for placing orders to purchase Fund shares. It is the responsibility of the Financial Intermediary to place the order with the Fund on a timely basis. Some Financial Intermediaries may charge transaction fees to their clients or have policies or procedures that differ from those set forth in this Prospectus. Please consult your Financial Intermediary regarding fee information and procedures for purchasing and selling shares of the Fund.

Important Information about Procedures for Opening a New Account. The Company, on behalf of the Fund, is required to comply with various anti-money laundering laws and regulations. To help the government fight the funding of terrorism and money laundering activities, Federal law requires all financial institutions, including mutual funds, to obtain, verify and record information that identifies each person who opens an account. Consequently, the Transfer Agent will verify certain information on your account application as part of the Fund's Anti-Money Laundering Program. As requested on the application, you must supply your full name, date of birth, social security number and permanent street address. We may also ask for other identifying documents or information. Mailing addresses containing only a P.O. Box will not be accepted. Please contact the Transfer Agent at 1-888-825-2100 if you need additional assistance when completing your application.

If we do not have a reasonable belief of your identity, the account will be rejected or you will not be allowed to perform a transaction on the account until such information is received. The Fund also reserves the right to close the account within five business days if clarifying information and/or documentation is not received. If at any time the Fund detects suspicious behavior or if certain account information matches government lists of suspicious persons, the Fund may determine not to open an account, may close an existing account, may file a suspicious activity report or may take other action. Any delay in processing your order will affect the purchase price you receive for your shares. The Company and the Transfer Agent are not liable for fluctuations in NAV experienced as a result of such delays in processing.

In order to purchase shares, you must reside in a jurisdiction where Fund shares may lawfully be offered for sale. Shares of the Fund have not been registered for sale outside of the United States except to investors with United States military APO or FPO addresses. The Fund may not be sold to investors residing outside the United States and its territories, except upon evidence of compliance with the laws of the applicable foreign jurisdictions.

If you purchase shares of the Fund by check and request the redemption of such shares, payment of the redemption proceeds may be delayed for up to 12 days in order to ensure that the check has cleared. This is a security precaution only and does not affect your investment.

The price you receive will be the NAV next determined after the Fund receives your request in proper form, subject to the redemption/exchange fee described below if the shares have been held for 30 days or less. Once your redemption request is received in proper form, the Fund normally will mail or wire your redemption proceeds the next business day and, in any event, no later than seven calendar days after receipt of a redemption request. However, where securities have been sold to generate cash for payment of a redemption, your redemption proceeds will not be paid until the first business day after the sales proceeds are received by the Fund. Also, the Fund may hold payment of your redemption proceeds until the Transfer Agent is reasonably satisfied that the purchase check has cleared, which may be up to 12 days. In addition to the redemption procedures described below, redemptions may also be made through Financial Intermediaries who may charge a commission or other transaction fee.

Written Redemption. To redeem shares in the Fund please furnish a written, unconditional request to: Frontegra Funds, Inc., c/o U.S. Bancorp Fund Services, LLC, P.O. Box 701, Milwaukee, Wisconsin 53201-0701. For written redemption requests sent via overnight delivery, please use 615 East Michigan Street, Third Floor, Milwaukee, Wisconsin 53202-5207. Your request must (i) be signed exactly as the shares are registered, including the signature of each owner and (ii) specify the number of Fund shares or dollar amount to be redeemed. The Transfer Agent may request additional documentation from corporations, executors, administrators, trustees, guardians, agents or attorneys-in-fact. Redemption proceeds may be wired to a commercial bank authorized on your account. Please note that if you redeem shares by wire, you may be charged a \$15 service fee. If you have redeemed all of your shares, the wire fee would be deducted from the redemption proceeds. If you have only redeemed a portion of your account, the fee will be deducted from the remaining balance in your account. If the dollar amount requested to be redeemed is greater than the current value of your account, your entire account balance may be redeemed.

Shareholders who have an IRA or other retirement plan must indicate on their redemption request whether or not to withhold federal income tax. Redemption requests failing to indicate an election not to have tax withheld will generally be subject to 10% withholding.

Purchases In Kind. Shares of the Fund may be purchased "in kind," subject to the approval of ICM and/or IronBridge International and their determination that the securities are acceptable investments for the Fund and that they have a value that is readily ascertainable in accordance

YOUR ACCOUNT *(continued)*

with the Fund's valuation policies. In an in kind purchase, investors transfer securities to the Fund in exchange for Fund shares. Securities accepted by the Fund in an in kind purchase will be valued at market value. In general, an investor transferring securities for shares will recognize a gain or loss, for federal income tax purposes, on an in kind purchase of the Fund, calculated as if the investor had sold the securities for their fair market value and used the proceeds to purchase shares of the Fund.

Redemptions In Kind. The Fund reserves the right to make a "redemption in kind" (a payment in portfolio securities rather than cash) if the amount you are redeeming is in excess of the lesser of (i) \$250,000 or (ii) 1% of the Fund's assets. In such cases, you may incur brokerage costs in converting these securities to cash.

Redemption/Exchange Fee. A redemption/exchange fee of 2.00% will be charged on shares of the Fund redeemed (including in connection with an exchange) 30 days or less from their date of purchase. The redemption/exchange fee is paid directly to the Fund and is designed to offset brokerage commissions, market impact and other costs associated with short-term trading of Fund shares. For purposes of determining whether the redemption/exchange fee applies, the shares that were held the longest will be redeemed first. The redemption/exchange fee does not apply to:

- shares purchased through certain omnibus accounts, including qualified retirement plans;
- shares acquired through dividends or capital gains investments; or
- shares redeemed because of death or disability.

Frontegra may, at its discretion, waive the redemption/exchange fee in the case of hardship and in other limited circumstances with respect to certain types of redemptions or exchanges that do not indicate market timing strategies.

Signature Guarantees. Signature guarantees are required in the following circumstances:

- for redemption proceeds sent to any person, address or bank account not on record;
- for requests to wire redemption proceeds (if not previously authorized on the account);
- for redemption requests submitted within 30 days of an address change;
- when establishing or modifying certain services on an account;
- when changing account ownership;
- in other situations deemed necessary by the Transfer Agent or the Fund to protect against the possibility of fraud.

A signature guarantee may be obtained from any bank, savings and loan association, credit union, brokerage firm or other eligible guarantor institution, but not a notary public.

Account Termination. Your account may be terminated by the Fund on not less than 30 days' notice if the value of the shares in an account falls below \$10,000 as a result of redemptions. Upon any such termination, a check for the redemption proceeds will be sent to the address of record within seven calendar days of the redemption.

Market Timing Policy. Frontegra may determine from the amount, frequency and pattern of exchanges that a shareholder is engaged in excessive trading that is detrimental to the Fund or its other shareholders. Such short-term or excessive trading into and out of the Fund may harm all shareholders by disrupting investment strategies, increasing brokerage, administrative and other expenses, decreasing tax efficiency and diluting the value of shares held by long-term shareholders.

YOUR ACCOUNT *(continued)*

The Board of Directors of the Fund has approved policies that seek to discourage frequent purchases and redemptions and curb the disruptive effects of frequent trading (the “Market Timing Policy”). Pursuant to the Market Timing Policy, the Fund may decline to accept an application or may reject a purchase request, including an exchange, from a market timer or an investor who, in the discretion of Frontegra, has a pattern of short-term or excessive trading or whose trading has been or may be disruptive to the Fund. In addition, the Fund reserves the right to reject any purchase, including an exchange, that could adversely affect the Fund or its operations. The Fund, ICM and their affiliates are prohibited from entering into arrangements with any shareholder or other person to permit frequent purchases and redemptions of Fund shares.

The Fund monitors and enforces the Market Timing Policy through:

- the termination of a shareholder’s purchase and/or exchange privileges;
- selective monitoring of trade activity;
- the 2.00% redemption/exchange fee for redemptions or exchanges 30 days or less after purchase (determined on a first-in, first out basis); and
- regular reports to the Board of Directors by the Fund’s Chief Compliance Officer regarding any unusual trading activity.

The Distributor has entered into shareholder information agreements with Financial Intermediaries, which enable the Distributor to request information to assist in monitoring for excessive short-term trading activity of individual shareholders within omnibus accounts. Omnibus accounts are accounts maintained by Financial Intermediaries on behalf of multiple beneficial shareholders. In some cases, the Fund may rely on the market timing policies of Financial Intermediaries, even if those policies are different from the Fund’s policy, when the Fund believes that the policies are reasonably designed to prevent excessive trading practices that are detrimental to the Fund. If inappropriate trading is detected in an omnibus account, the Fund may request that the Financial Intermediary take action to prevent the underlying shareholder from engaging in such trading and to enforce the Fund’s or the Financial Intermediary’s market timing policy. There may be legal and technological limitations on the ability of Financial Intermediaries to restrict the trading practices of their clients, and they may impose restrictions or limitations that are different from the Fund’s policies. As a result, the Fund’s ability to monitor and discourage excessive trading practices in omnibus accounts may be limited.

EXCHANGE PRIVILEGE

You may exchange your shares in any Frontegra Fund for shares in any other Frontegra Fund at any time by written request. The value of the shares to be exchanged and the price of the shares being purchased will be the NAV next determined after receipt of instructions for exchange in proper form. An exchange from one Fund to another is treated, for federal income tax purposes, as a sale of the shares to be exchanged at their fair market value and a subsequent use of the sales proceeds to purchase the replacement shares, and will result in the realization of a capital gain or loss determined by reference to your adjusted basis in the shares to be exchanged and the fair market value of those shares on the date of the exchange. This is not a tax-free exchange. Exchange requests should be directed to: Frontegra Funds, Inc., c/o U.S. Bancorp Fund Services, LLC, P.O. Box 701, Milwaukee, Wisconsin 53201-0701. For written exchange requests sent via overnight delivery, please use 615 East Michigan Street, Third Floor, Milwaukee, Wisconsin 53202-5207.

Exchange requests may be subject to limitations under the Market Timing Policy to ensure that the exchanges do not disadvantage the Fund or its shareholders. The Company reserves the right to modify or terminate the exchange privilege upon 60 days’ written notice to each shareholder prior to the modification or termination taking effect.

EXCHANGE PRIVILEGE *(continued)*

If you exchange your shares in the Fund for shares in any other Frontegra Fund, you may be subject to the redemption/exchange fee described above under “Your Account—Redemption/Exchange Fee.”

VALUATION OF FUND SHARES

Shares of the Fund are sold at the Fund's NAV. The NAV of the Fund is calculated using the market value of the Fund's investments and is determined as of the close of trading (generally 4:00 p.m. Eastern Time) on each day the NYSE is open for business. The Fund does not determine NAV on days the NYSE is closed. The NYSE is closed on New Year's Day, Martin Luther King, Jr. Day, President's Day, Good Friday, Memorial Day, Independence Day, Labor Day, Thanksgiving Day and Christmas Day. The price at which a purchase order or redemption request is effected is based on the next calculation of NAV after we receive your transaction request in good order.

In determining the Fund's NAV, each equity security traded on a securities exchange, including Nasdaq, is valued at the closing price on the exchange on which the security is principally traded. Exchange-traded securities for which there were no transactions on a given day and securities not listed on a securities exchange are valued at the most recent bid price. Short-term investments maturing within 60 days are valued at amortized cost, which approximates fair value.

Any securities or other assets for which market valuations are not readily available or are unreliable are valued at fair value as determined by ICM or IronBridge International in good faith and in accordance with procedures approved by the Fund's Board of Directors. Consequently, the price of a security used by the Fund to calculate its NAV may differ from the quoted or published price for the same security. The Fund may use fair value pricing if, for example, trading in a particular security is halted and does not resume before the Fund calculates its NAV or the exchange on which a security is traded closes early. Fair value pricing involves subjective judgments and it is possible that the fair value determined for a security is materially different from the value that could be realized upon the sale of that security.

The Fund's securities may be listed on foreign exchanges that trade on days when the Fund does not calculate NAV. As a result, the market value of the Fund's investments may change on days when you cannot purchase or sell Fund shares. In addition, a foreign exchange may not value its listed securities at the same time that the Fund calculates its NAV. If a significant event occurs in a foreign market after the close of the exchange that may affect a security's value, such security may be valued at its fair value pursuant to the procedures discussed above. The Board of Directors may rely on the recommendations of a fair value pricing service it has retained to assist in valuing foreign securities. The fair value pricing service may employ quantitative models in determining fair value.

PORTFOLIO HOLDINGS DISCLOSURE POLICY

A description of the Fund's policies and procedures with respect to the disclosure of the Fund's portfolio securities is available in the Fund's SAI.

DISTRIBUTIONS AND TAX TREATMENT

As with any investment, you should consider how your investment in the Fund will be taxed. If your account is not a retirement account or other tax-advantaged savings plan (or you are not otherwise exempt from income tax), you should be aware of the following tax implications.

Taxes on Distributions. The Fund intends to distribute substantially all of its investment company taxable income and net capital gain, if any, to shareholders at least annually. For federal income tax purposes, distributions from the Fund's investment company taxable income (which includes dividends, interest, the excess of any net short-term capital gains over net long-term capital loss, and net gains from foreign

DISTRIBUTIONS AND TAX TREATMENT *(continued)*

currency transactions), if any, generally will be taxable to you as ordinary income whether reinvested in additional Fund shares or received in cash, unless such distributions are attributable to and designated by the Fund as “qualified dividend income” (as defined in the Code) eligible for the reduced rate of tax on long-term capital gains. Currently, the maximum rate applicable to long-term capital gains, and thus, to qualified dividend income, is set at 15%.

If the Fund designates distributions of net capital gains (the excess of net long-term capital gains over short-term capital losses) as “capital gain dividends,” then such distributions will be taxable as long-term capital gains whether reinvested in additional Fund shares or received in cash and regardless of the length of time you have owned your shares. The Fund will inform shareholders of the source and tax status of all distributions promptly after the close of each calendar year.

When the Fund makes a distribution, the Fund’s NAV decreases by the amount of the payment. If you purchase shares shortly before a distribution, you will, nonetheless, be subject to income taxes on the distribution, even though the value of your investment (plus cash received, if any) remains the same. The Fund expects that, because of its investment objective, its distributions will consist primarily of capital gain. All distributions will automatically be reinvested in shares of the Fund at the then prevailing NAV unless you specifically request that either distributions of investment company taxable income or net capital gains or both be paid in cash. If you elect to receive distributions in cash, and the U.S. Postal Service cannot deliver the check, or if a check remains outstanding for six months, the Fund reserves the right to reinvest the distribution check in your account, at the Fund’s current NAV, and to reinvest all subsequent distributions.

The election to receive distributions in cash or reinvest them may be changed by writing to: Frontegra Funds, Inc., c/o U.S. Bancorp Fund Services, LLC, P.O. Box 701, Milwaukee, Wisconsin 53201-0701. For overnight deliveries, please use 615 East Michigan Street, Third Floor, Milwaukee, Wisconsin 53202-5207. Such notice must be received at least five business days prior to the record date of any distribution.

Taxes on Transactions. Your redemption of Fund shares may result in a taxable gain or loss to you, depending on whether the redemption proceeds are more or less than your adjusted basis in the redeemed shares (generally, the amount you paid for the shares). As discussed above under “Exchange Privilege,” an exchange of Fund shares for shares in any other Frontegra Fund generally will have similar tax consequences to a redemption of Fund shares.

Withholding. If you do not furnish the Fund with your correct Social Security Number or Taxpayer Identification Number and/or the Fund receives notification from the Internal Revenue Service requiring back-up withholding, the Fund is required by federal law to withhold federal income tax from your distributions and redemption proceeds, currently at a rate of 28% for U.S. residents.

Foreign Tax Considerations. Some foreign governments levy withholding taxes against dividend and interest income. Although in some countries a portion of these taxes is recoverable, the non-recovered portion will reduce the return on the Fund’s securities. The Fund may elect to pass through to you your pro rata share of foreign income taxes paid by the Fund. The Fund will notify you if it makes such an election.

This section is not intended to be a full discussion of federal income tax laws and the effect of such laws on you. There may be other federal, state, foreign or local tax considerations applicable to a particular investor. You are urged to consult your own tax adviser.

Please see the SAI for more information about taxes.
