You should rely only on the information contained in this Prospectus and in the Statement of Additional Information (“SAI”), which is available upon request. Frontier Funds, Inc. (the “Company”) has not authorized others to provide additional information. The Company does not authorize use of this Prospectus in any state or jurisdiction where the offering cannot legally be made.

S U M M A R Y S E C T I O N

Investment Objective. The investment objective of the Frontier MFG Global Sustainable Fund (the “Fund”) is to seek attractive risk-adjusted returns over the medium- to long-term while reducing the risk of permanent capital loss.

Fees and Expenses of the Fund. This table describes the fees and expenses that you may pay if you buy, hold and sell shares of the Fund. You may pay other fees, such as brokerage commissions and other fees to financial intermediaries, which are not reflected in the tables and example below.

	<u>Institutional</u>	<u>Service</u>
Shareholder Fees		
(fees paid directly from your investment)		
Redemption Fee (as a percentage of amount redeemed, if applicable)	2.00%	2.00%
Annual Fund Operating Expenses		
(expenses that you pay each year as a percentage of the value of your investment)		
Management Fees	0.80%	0.80%
Distribution (12b-1) Fees	NONE	NONE
Other Expenses		
Shareholder Servicing Fee	NONE	0.15%
Additional Other Expenses	<u>0.70%</u>	<u>0.70%</u>
Total Other Expenses	<u>0.70%</u>	<u>0.85%</u>
Total Annual Fund Operating Expenses ⁽¹⁾	1.50%	1.65%
Less: Fee Waiver/Expense Reimbursement ⁽²⁾	<u>(0.70)%</u>	<u>(0.70)%</u>
Total Annual Fund Operating Expenses After Fee Waiver/Expense Reimbursement ⁽¹⁾	<u>0.80%</u>	<u>0.95%</u>

⁽¹⁾ The “Total Annual Fund Operating Expenses” and “Total Annual Fund Operating Expenses After Fee Waiver/Expense Reimbursement” for Service Class shares do not correlate to the “Ratio of expenses to average net assets” figures in the Financial Highlights section of this Prospectus because Service Class shares accrued shareholder servicing fees in the amount of 0.10% for the fiscal year ended June 30, 2023.

⁽²⁾ Frontegra Asset Management, Inc. (“Frontegra”), the Fund’s investment adviser, has contractually agreed to waive its management fee and/or reimburse the Fund’s operating expenses to the extent necessary to ensure that the Fund’s total operating expenses (excluding taxes, interest, brokerage commissions, acquired fund fees and expenses (“AFFE”) and extraordinary expenses) do not exceed 0.80% and 0.95% of the Fund’s average daily net assets attributable to the Institutional Class and Service Class shares, respectively. Frontegra is entitled to recoup the fees waived and/or expenses reimbursed within a three-year period from the date of the waiver or expense payment if such reimbursement will not cause the Fund’s expense ratio to exceed the lesser of: (a) the expense limitation in place at the time of the waiver and/or expense payment; or (b) the expense limitation in place at the time of the recoupment. The expense cap/reimbursement agreement will continue in effect until October 31, 2025, and may be terminated only by, or with the consent of, the Board of Directors of the Company.

Example. The following example is intended to help you compare the cost of investing in the shares of the Fund with the cost of investing in other mutual funds. The example assumes that you invest \$10,000 in the Fund for the time periods indicated and then redeem all of your shares at the end of those periods. The example also assumes that your investment has a 5% return each year and that the Fund’s operating expenses remain the same. Although your actual costs may be higher or lower, based on these assumptions your costs would be:

	<u>1 Year</u>	<u>3 Years</u>	<u>5 Years</u>	<u>10 Years</u>
Institutional Class	\$82	\$333	\$682	\$1,667
Service Class	\$97	\$379	\$761	\$1,833

SUMMARY SECTION (continued)

Portfolio Turnover. The Fund pays transaction costs, such as commissions, when it buys and sells securities (or “turns over” its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in annual fund operating expenses or in the example, affect the Fund’s performance. During its most recent fiscal year, the Fund’s portfolio turnover rate was 49% of the average value of its portfolio.

Principal Investment Strategy. Under normal market conditions, the Fund invests at least 80% of its net assets in equity securities of issuers listed on U.S. and international stock exchanges that meet the criteria for environmental, social and governance (“ESG”) and low carbon investments of the Fund’s subadviser, Magellan Asset Management Limited doing business as MFG Asset Management (“MFG Asset Management”). Equity securities in which the Fund will invest as a principal investment strategy consist of common stocks, American Depositary Receipts (“ADRs”) and Global Depositary Receipts (“GDRs”). In selecting investments for the Fund, MFG Asset Management reviews a broad spectrum of ESG issues for their materiality of impact on the future earnings and risks of companies. MFG Asset Management considers amongst other things and where applicable: environmental issues, such as climate change and pollution; social issues, such as human rights and health and safety; and corporate governance issues, such as governance and compensation structures. The choice of ESG factors for any company will vary by industry and company. In addition, MFG Asset Management incorporates a proprietary process that facilitates the identification of companies with materially lower carbon factor risk through the analysis of factors such as carbon emissions intensity and fossil fuel exposure.

The Fund invests in a non-diversified portfolio of high quality companies, which are companies that MFG Asset Management believes are market leaders in their industry, earn returns on capital above the cost of capital, and have long term and sustainable competitive advantages. The Fund will generally hold between 20 to 50 companies in its portfolio that meet these criteria. Under normal market conditions, the Fund will allocate its assets among issuers located in at least three different countries and will invest at least 40% of its net assets in non-U.S. companies. MFG Asset Management may reduce this 40% minimum investment amount to 30% if it deems market conditions to be unfavorable. With respect to its non-U.S. investments, the Fund invests in companies located in developed countries but may also invest in emerging markets as part of its principal investment strategy. The Fund may invest in companies headquartered in China including investments in A share listings on Chinese stock exchanges. The Fund may invest in companies of any size, but generally invests in companies with a market capitalization of at least \$5 billion. The Fund may have significant investments in the technology sector.

Principal Investment Risks.

Market Risks; Recent Market Events. The Fund’s investments are subject to market risk, which may cause the value of the Fund’s investments to decline. If the value of the Fund’s investments goes down, the share price of the Fund will go down, and you may lose money. U.S. and international markets have experienced volatility in recent months and years due to a number of economic, political and global macro factors, including rising inflation, trade tensions, the war between Russia and Ukraine, disruption in the banking sector and the impact of the coronavirus (COVID-19) global pandemic. Uncertainties regarding the level of central banks’ interest rate increases, political events, rising government debt in the U.S. and the possibility of a national or global recession have also contributed to market volatility. During periods of volatility, the Fund may experience high levels of shareholder redemptions and may have to sell securities at times when the Fund would otherwise not do so, potentially at unfavorable prices. Certain securities may be difficult to value during such periods.

Common Stocks Risks. Common stocks held by the Fund will fluctuate in value based on the earnings of the company and on general industry and market conditions, leading to fluctuations in the Fund’s share price.

Stock Selection Risks. The stocks selected for the Fund may decline in value or not increase in value when the stock market in general is rising.

SUMMARY SECTION (continued)

Foreign Securities Risks. Investments in securities of foreign companies involve additional risks, including less liquidity, currency-rate fluctuations, political and economic instability, differences in financial reporting standards and securities market regulation, and the imposition of foreign withholding taxes.

Emerging Markets Risks. Emerging market countries may have relatively unstable governments, weaker economies and less developed legal systems with fewer securities holder rights. Emerging market economies may be based on only a few industries and security issuers may be more susceptible to economic weakness and more likely to default. Emerging market securities also tend to be less liquid.

- *China Investing Risks.* The Fund may invest in companies headquartered in China, including Hong Kong. Risks associated with investments in China include risks related to governmental policies and risks to the economy from trade or political disputes with China's trading partners.

Currency Risks. The value of the Fund's foreign holdings as measured in U.S. dollars may be affected unfavorably by changes in foreign currency exchange rates. The Fund may also incur costs in connection with conversions between various currencies.

Non-Diversification Risks. The Fund is non-diversified, which means it may invest more of its assets in a smaller number of companies than funds that are diversified. Gains or losses on a single stock may have greater impact on the Fund than for other funds that invest in a greater number of companies.

Management Risks. The Fund is subject to management risk as an actively-managed investment portfolio and is dependent on the decisions of the portfolio management team to achieve the Fund's investment objective.

ESG and Low Carbon Investing Risks. In pursuing MFG Asset Management's ESG and low carbon investment strategy, there is a risk that the Fund may invest in companies that underperform the global equity markets or other companies in a portfolio that do not employ such strategy because the Fund's universe of investments may be smaller than that of other funds. The Fund may forgo opportunities to gain exposure to certain companies, industries, sectors or countries, and it may choose to sell a security when it might otherwise be disadvantageous to do so.

Large Capitalization Risks. Larger, more established companies may be unable to respond quickly to new competitive challenges, such as changes in consumer tastes or innovative, smaller competitors. Large-capitalization companies are also sometimes unable to attain the high growth rates of successful, smaller companies, especially during extended periods of economic expansion.

ADR/GDR Risks. The risks of ADRs and GDRs include many of the risks associated with investing directly in foreign securities, such as currency rate fluctuations and political and economic instability.

Small Fund Risks. There can be no assurance that the Fund will grow to or maintain an economically viable size.

Liquidity Risks. Liquidity risk is the risk that certain securities may be difficult or impossible to sell, or sell at the time and price desired by MFG Asset Management. MFG Asset Management may have to lower the price, sell other securities instead or forego an investment opportunity.

Shareholder Concentration Risks. A large percentage of the Fund's shares are held by a small number of shareholders, including affiliates of MFG Asset Management. A large redemption by one or more of these shareholders could result in the Fund selling securities when it otherwise would not have done so, accelerating the realization of capital gains and increasing transaction costs. A large redemption could also significantly reduce the Fund's assets and increase the Fund's expenses.

Sector Emphasis Risks. Sector emphasis risk is the possibility that investments within certain sectors may decline in price due to sector-specific economic developments.

SUMMARY SECTION (continued)

Technology Sector Risks. To the extent that the Fund invests a significant portion of its assets in companies within the technology sector, there are risks that may affect technology companies. These risks include regulatory risks, the risk of a reduction in competitiveness and loss of market share, uncertainty regarding future revenue, and reputational or operational risks from significant data breaches or cyber-attacks.

Cybersecurity Risks. Despite the various protections utilized by the Fund and its service providers, systems, networks, or devices utilized by the Fund can be potentially breached. The Fund and its shareholders could be negatively impacted as a result of a cybersecurity breach.

Performance. The return information provided in the following bar chart and table illustrates how the performance of the Fund can vary, which is one indication of the risks of investing in the Fund. The bar chart shows the Fund's performance for the past two calendar years, while the table compares the average annual total returns of the Fund to a broad measure of market performance. Please keep in mind that the Fund's past performance (before and after taxes) does not necessarily represent how it will perform in the future. Updated performance data is available on the Company's website at www.frontiermutualfunds.com or by calling toll-free to 1-888-825-2100.

The Fund's return from January 1, 2023, through September 30, 2023, was 15.48%.

Best and Worst Quarterly Performance (during the periods shown above)

Best Quarter Return	Worst Quarter Return
16.02% (2nd quarter, 2020)	(16.84)% (1st quarter, 2020)

SUMMARY SECTION (continued)

Average Annual Total Returns

(For the periods ended December 31, 2022)

	<u>One Year</u>	<u>Since Inception⁽¹⁾</u>
<i>Institutional Class</i>		
Return Before Taxes	(22.11)%	1.57%
Return After Taxes on Distributions	(22.24)%	1.20%
Return After Taxes on Distributions and Sale of Fund Shares	(13.02)%	1.19%
MSCI World Index (Net) (reflects no deductions for fees, expenses or taxes)	(18.14)%	7.93%
<i>Service Class</i>		
Return Before Taxes	(22.24)%	(3.96)%
MSCI World Index (Net) (reflects no deductions for fees, expenses or taxes)	(18.14)%	4.86%

⁽¹⁾ The Institutional Class and the Service Class commenced operations on October 9, 2019, and October 20, 2020, respectively.

After-tax returns are shown only for Institutional Class shares, and the after-tax returns for Service Class shares will vary. After-tax returns for the Fund were calculated using the historical highest individual federal marginal income tax rates and do not reflect the impact of state and local taxes. Actual after-tax returns depend on an investor's tax situation and may differ from those shown, and after-tax returns are not relevant to investors who hold shares of the Fund through tax-deferred or other tax advantaged arrangements, such as a 401(k) plan or individual retirement account ("IRA"). In certain cases, the figure representing "Return After Taxes on Distributions and Sale of Fund Shares" may be higher than other return figures for the same period. A higher after-tax return results when a capital loss occurs upon redemption and provides an assumed tax deduction that benefits the investor.

Management.

Investment Adviser and Subadviser. Frontegra is the investment adviser to the Fund. MFG Asset Management is the subadviser to the Fund.

Portfolio Managers.

<u>Name</u>	<u>Portfolio Manager of the Fund Since</u>	<u>Title</u>
Alan Pullen	2023	Portfolio Manager
Hannah Dickinson	2023	Portfolio Manager

Purchase and Sale of Fund Shares. You may purchase or redeem shares of the Fund on any business day by written request to Frontier Funds, Inc., c/o U.S. Bank Global Fund Services, P.O. Box 701, Milwaukee, Wisconsin 53201-0701, by wire or through a financial intermediary. The Fund's minimum initial and subsequent investment amounts are shown below, which may be modified for purchases made through certain financial intermediaries. The Fund may reduce or waive the minimums in its sole discretion.

	<u>Minimum Initial Investment</u>	<u>Minimum Subsequent Investments</u>
Institutional Class	\$1,000,000	\$1,000
Service Class	\$10,000	\$1,000

S U M M A R Y S E C T I O N *(continued)*

Tax Information. The Fund's distributions are taxable and will be taxed as ordinary income or long-term capital gains, unless you are investing through a tax advantaged arrangement, such as a 401(k) plan or an IRA. You may be taxed later upon withdrawal of funds from tax-deferred arrangements.

Payments to Broker-Dealers and Other Financial Intermediaries. If you purchase shares of the Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create conflicts of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary's website for more information.

PRINCIPAL INVESTMENT STRATEGY AND RELATED RISKS

Investment Objective. The investment objective of the Fund is to seek attractive risk-adjusted returns over the medium- to long-term while reducing the risk of permanent capital loss. The investment objective may be changed without shareholder approval.

Principal Investment Strategy. Under normal market conditions, the Fund invests at least 80% of its net assets in equity securities of issuers listed on U.S. and international stock exchanges that meet MFG Asset Management's criteria for ESG and low carbon investments. The Fund is non-diversified. Equity securities in which the Fund invests as a principal investment strategy consist of common stocks, ADRs and GDRs. In selecting ESG investments, MFG Asset Management reviews a broad spectrum of ESG issues for their materiality of impact on the future earnings and risks of companies. MFG Asset Management considers amongst other things and where applicable: environmental issues, such as climate change and pollution; social issues, such as human rights and health and safety; and corporate governance issues, such as governance and compensation structures. The choice of ESG factors for any company will vary by industry and company. In addition, MFG Asset Management incorporates a proprietary process that facilitates the identification of companies with materially lower carbon factor risk. In selecting investments with lower carbon factor risk, MFG Asset Management considers companies' carbon emissions intensity and materiality of fossil fuel interests or exposures. MFG Asset Management limits the Fund's weighted average carbon emissions intensity through the application of a cap. Company carbon emissions intensity is obtained from third party providers, which typically source their data from company disclosures made under the framework provided by the Carbon Disclosure Project. The Fund may have significant investments in the technology sector.

The Fund invests in a non-diversified portfolio of high quality companies, which are companies that MFG Asset Management believes are market leaders in their industry, earn returns on capital above the cost of capital, and have long-term and sustainable competitive advantages. The Fund will generally hold 20 to 50 companies in its portfolio that meet the criteria. The Fund may invest in companies of any size, but generally invests in companies with a market capitalization of at least \$5 billion. As a non-principal investment strategy, MFG Asset Management generally excludes investments in securities that it deems to have material exposures in the tobacco, mining, gambling, weapons, adult entertainment or alcohol industries.

Under normal market conditions, the Fund will allocate its assets among issuers located in at least three different countries and will invest at least 40% of its net assets in non-U.S. companies. MFG Asset Management may reduce the 40% minimum investment amount to 30% if it deems market conditions to be unfavorable.

The Fund defines non-U.S. companies as companies:

- that are organized under the laws of a foreign country;
- whose principal trading market is in a foreign country; or
- that derive a significant portion of their revenue from outside of the United States.

For purposes of this definition, a company has a "significant" portion of its revenue from outside of the United States if 50% or more of the company's revenue is sourced outside of the United States. With respect to the Fund's non-U.S. investments, the Fund invests in companies located in developed countries as part of its principal investment strategy. The Fund may also invest in emerging markets as part of its principal investment strategy. In particular, the Fund may invest in companies headquartered in China including investments in A share listings on Chinese stock exchanges.

MFG Asset Management seeks to achieve the Fund's investment objective through an integrated investment approach that incorporates four key elements:

PRINCIPAL INVESTMENT STRATEGY AND RELATED RISKS *(continued)*

- *Industry and Company Research.* MFG Asset Management employs a bottom-up analytical approach that involves an assessment of a company's competitive advantages resulting in a quality rating determined by MFG Asset Management's investment committee and a valuation of a company based on MFG Asset Management's financial forecasts for the company. MFG Asset Management determines a company's quality rating based on its analysis of a number of assessed criteria, such as the company's sustainable competitive advantage, growth potential, predictability of cash flows and earnings, return on invested capital, operating and financial leverage, management and board track record on deployment of capital and ESG issues.
- *Macroeconomic Research.* MFG Asset Management undertakes macroeconomic research and incorporates its assessment of macroeconomic-related risk in its overall portfolio decisions for the Fund.
- *Portfolio Construction.* MFG Asset Management designs the Fund's portfolio to have lower historical volatility than that exhibited by world equity markets, as measured against the MSCI World Index. MFG Asset Management also incorporates portfolio risk controls that limit total exposure to individual investments or investments in aggregate that would lead to a concentration of risk in MFG Asset Management's opinion.
- *ESG and Low Carbon Investment Framework.* MFG Asset Management considers a broad spectrum of ESG issues for their materiality of impact on future earnings and risks of companies and applies its ESG framework that is described in more detail above. In addition, MFG Asset Management has developed a proprietary low carbon investment framework, which seeks to lower carbon factor risks and caps the Fund's carbon intensity at less than one-third of that of the MSCI World Index through:
 1. screening out companies based on their carbon emissions intensity (based on their carbon emissions per unit of revenue) with the screening threshold based on globally agreed upon climate goals;
 2. limiting the portfolio's weighted average carbon emissions intensity through a carbon emissions intensity cap; and
 3. excluding companies with fossil fuel interests or exposures (for example, companies engaged in the extraction, transportation and storage of fossil fuels).

To assist the assessment of ESG risks, analysts evaluate data and information on ESG issues relevant to the companies that they cover from a variety of third party sources regarding companies' detailed climate disclosures, including data on carbon emissions and climate change mitigation activities.

MFG Asset Management may adjust this framework over time as ESG or carbon reduction goals evolve or as it otherwise deems appropriate.

Companies are sold due to unfavorable changes in valuation, underlying fundamentals or management; if there are more attractive opportunities available; if the company has not performed to expectations; or if MFG Asset Management believes it is prudent to sell a position for risk management purposes.

The Fund's investment objective incorporates consideration of ESG risks and the application of a proprietary low carbon framework. The Fund may frequently have high "active share," which measures how much the holdings of the Fund differ from those of the securities in the Fund's benchmark index, the MSCI World Index.

The Fund will provide shareholders with at least a 60 day notice of any change in the Fund's policy to invest at least 80% of its net assets in the types of securities suggested by its name. The 80% limitation is measured at the time of investment. For purposes of the 80% policy, net assets include any borrowings for investment purposes. Percentage limitations set forth under "Principal Investment Strategy" are measured at the time of investment.

PRINCIPAL INVESTMENT STRATEGY AND RELATED RISKS *(continued)*

Cash or Similar Investments. The Fund will typically hold up to 20% of its total assets in cash, money market deposit accounts, money market mutual funds, short-term fixed income securities and other short-dated instruments that are readily convertible into cash for any purpose.

Temporary Defensive Position. The Fund may invest up to 100% of its total assets in cash, money market deposit accounts, money market mutual funds and short-term fixed income securities as a temporary defensive position during adverse market, economic or political conditions, or in other limited circumstances, such as in the case of unusually large cash inflows or redemptions. From time to time, MFG Asset Management may make significant changes to the Fund's portfolio if it believes that macroeconomic events could lead to a significant and sustained loss in value for shareholders. Such events could include a financial crisis, a sustained oil price shock, a global pandemic or a major global conflict. To the extent MFG Asset Management maintains a substantial cash position for the Fund, engages in temporary strategies or makes significant changes to the Fund's portfolio, the Fund may not achieve its investment objective.

Additional Principal Risk Information.

Market Risks; Recent Market Events. The Fund's investments are subject to market risk, which may cause the value of the Fund's investments to decline. If the value of the Fund's investments goes down, the share price of the Fund will go down, and you may lose money. Volatility in share price is an inherent characteristic of equity markets. U.S. and international markets have experienced volatility in recent months and years due to a number of economic, political and global macro factors, including rising inflation, problems in the banking sector, the war between Russia and Ukraine and the impact of COVID-19. Uncertainties regarding the level of central banks' interest rate increases, political events, the Russia-Ukraine conflict, trade tensions and the possibility of a national or global recession have also contributed to market volatility. In addition, the impact and spread of infectious diseases in developing or emerging market countries may cause relatively greater strain on those countries' healthcare systems than those in developed countries.

Global economies and financial markets are increasingly interconnected, which increases the possibility that conditions in one country or region might adversely impact issuers in a different country or region. In particular, a rise in protectionist trade policies, slowing global economic growth, risks associated with epidemic and pandemic diseases, risks surrounding the uncertainty of the United Kingdom's economy, the risk of trade disputes, and the possibility of changes to some international trade agreements, could affect the economies of many nations, including the United States, in ways that cannot necessarily be foreseen at the present time. Continuing market volatility as a result of recent market conditions or other events may have adverse effects on your account. Frontegra and MFG Asset Management will monitor developments and seek to manage the Fund in a manner consistent with achieving the Fund's investment objective, but there can be no assurance that they will be successful in doing so.

Common Stocks Risks. Common stocks held by the Fund will fluctuate in value based on the earnings of the company and on general industry and market conditions. A fund that invests a significant amount of its assets in common stocks is likely to have greater fluctuations in the share price than a fund that invests a significant portion of its assets in fixed income securities.

Stock Selection Risks. Stock prices vary and may fall, thus reducing the value of the Fund's investments. The stocks selected for the Fund may decline in value or not increase in value when the stock market in general is rising.

Foreign Securities Risks. Investments in securities of foreign companies involve additional risks, including less liquidity, currency-rate fluctuations, political and economic instability, differences in financial reporting standards, settlement delays and securities market regulation, and the imposition of foreign withholding taxes. Geopolitical events may cause market disruptions. In addition, foreign investments may not be subject to the same uniform accounting, auditing, or financial reporting standards and practices applicable to U.S. issuers, and there may be less

PRINCIPAL INVESTMENT STRATEGY AND RELATED RISKS *(continued)*

publicly available information about foreign issuers. Financial markets have recently experienced increased volatility due to the uncertainty surrounding the economies of certain European countries, which may increase the risks of investing in securities of foreign issuers. With respect to certain foreign countries, there is a possibility of expropriation or confiscatory taxation, or diplomatic developments, which could affect investments in those countries.

Emerging Markets Risks. Emerging market countries may have relatively unstable governments, weaker economies, and less-developed legal systems than more developed foreign markets. Emerging market economies may be based on only a few industries and security issuers may be more susceptible to economic weakness and more likely to default. Emerging market securities also tend to be less liquid. Investments in emerging market countries may be affected by government policies that restrict foreign investment in certain issues or industries. Investments in emerging market securities may be more volatile than investments in developed countries, and such securities may be subject to abrupt and severe price declines. In addition to withholding taxes on investment income, some emerging market countries may impose different capital gains taxes or capital restrictions on foreign investors.

- *China Investing Risks.* The Fund may invest in companies headquartered in China, including Hong Kong. Risks associated with investments in China include risks related to governmental policies and risks to the economy from trade or political disputes with China's trading partners.

Currency Risks. The value of the Fund's foreign holdings as measured in U.S. dollars may be affected unfavorably by changes in foreign currency exchange rates. The Fund may also incur costs in connection with conversions between various currencies.

Non-Diversification Risks. The Fund is non-diversified, which means it may invest more of its assets in a smaller number of companies than funds that are diversified. Gains or losses on a single company may have greater impact on the Fund than for other funds that invest in a greater number of companies.

Management Risks. The Fund is subject to management risk as an actively-managed investment portfolio and is dependent on the decisions of the portfolio management team to achieve the Fund's investment objective.

ESG and Low Carbon Investing Risks. In pursuing MFG Asset Management's ESG and low carbon investment strategy, there is a risk that the Fund may invest in companies that underperform the global equity markets or other companies in a portfolio that do not employ such strategy because the Fund's universe of investments may be smaller than that of other funds. The Fund may forgo opportunities to gain exposure to certain companies, industries, sectors or countries, and it may choose to sell a security when it might otherwise be disadvantageous to do so. MFG Asset Management's framework of ESG and low carbon investments will vary from other managers. There is no guarantee MFG Asset Management's abilities to select ESG and low carbon investments will be successful.

Large Capitalization Risks. Larger, more established companies may be unable to respond quickly to new competitive challenges, such as changes in consumer tastes or innovative, smaller competitors. Large-capitalization companies are also sometimes unable to attain the high growth rates of successful, smaller companies, especially during extended periods of economic expansion.

ADR/GDR Risks. The risks of ADRs and GDRs (together, "DRs") include many of the risks associated with investing directly in foreign securities, such as currency rate fluctuations and political and economic instability. DRs are certificates evidencing ownership of shares of a foreign-based issuer held by a bank or similar financial institution as depository. DR holders may not have all of the legal rights of shareholders. DRs may be sponsored or unsponsored. If the Fund invests in an unsponsored DR, the Fund is likely to bear its proportionate share of expenses of the depository, and it may have greater difficulty in receiving shareholder communications than it would have with a sponsored DR.

PRINCIPAL INVESTMENT STRATEGY AND RELATED RISKS *(continued)*

Small Fund Risks. There can be no assurance that the Fund will grow to or maintain an economically viable size.

Liquidity Risks. Liquidity risk is the risk that certain securities may be difficult or impossible to sell, or sell at the time and price desired by MFG Asset Management. MFG Asset Management may have to lower the price, sell other securities instead or forego an investment opportunity.

Shareholder Concentration Risks. A large percentage of the Fund's shares are held by a small number of shareholders, including persons and entities related to the parent company of MFG Asset Management. A large redemption by one or more of these shareholders could result in the Fund selling securities when it otherwise would not have done so, accelerating the realization of capital gains and increasing transaction costs. A large redemption could also significantly reduce the Fund's assets and increase the Fund's expenses.

Sector Emphasis Risks. Sector emphasis risk is the possibility that investments within certain sectors may decline in price due to sector-specific economic developments. Potential negative market or economic developments affecting one of the larger sectors held by the Fund could have a greater impact on the Fund than on a fund with fewer holdings in that sector.

Technology Sector Risks. To the extent that the Fund invests a significant portion of its assets in companies within the technology sector, there are risks that may affect technology companies. These risks include regulatory risks faced by dominant technology platforms including around antitrust, privacy and control of information, a reduction in competitiveness and loss of market share (should the companies be unable to keep up with innovations), uncertainty regarding the forecasting or the future size of their target market and therefore the future revenue they will generate, and reputational or operational risks from significant data breaches or cyber-attacks.

Cybersecurity Risks. The computer systems, networks and devices used by the Fund and its service providers to carry out routine business operations employ a variety of protections designed to prevent damage or interruption from computer viruses, network failures, computer and telecommunication failures, infiltration by unauthorized persons and security breaches. Despite the various protections utilized by the Fund and its service providers, systems, networks, or devices can be potentially breached. The Fund and its shareholders could be negatively impacted as a result of a cybersecurity breach. Cybersecurity breaches can include unauthorized access to systems, networks, or devices; infection from computer viruses or other malicious software code; and attacks that shut down, disable, slow, or otherwise disrupt operations, business processes, or website access or functionality. Cybersecurity breaches may cause disruptions and impact the Fund's business operations, potentially resulting in financial losses; interference with the Fund's ability to calculate its NAV; impediments to trading; the inability of the Fund, Frontegra, MFG Asset Management, and other service providers to transact business; violations of applicable privacy and other laws; regulatory fines; penalties, reputational damage, reimbursement or other compensation costs, or additional compliance costs; as well as the inadvertent release of confidential information.

Portfolio Holdings Disclosure Policy. A description of the Fund's policies and procedures with respect to the disclosure of the Fund's portfolio securities is available in the SAI.

FINANCIAL HIGHLIGHTS

The financial highlights tables describe the financial performance for the Fund's Institutional Class and Service Class shares since inception. Certain information reflects financial results for a single Fund share. The total returns in the tables represent the rate that an investor would have earned (or lost) on an investment in the Fund for the stated periods (assuming reinvestment of all distributions). The information has been audited by Cohen & Company, Ltd. ("Cohen"). The Fund's financial statements, along with Cohen's report, are included in the Fund's annual report, which is available upon request.

FUND MANAGEMENT

Adviser. Frontegra is the Fund's investment adviser and supervises the management of the Fund's portfolio by MFG Asset Management, subject to the oversight of the Board of Directors of the Company (the "Board"). Frontegra was organized in 1996 and is located at 400 Skokie Boulevard, Suite 500, Northbrook, Illinois 60062. Frontegra, Frontegra Strategies, LLC, the Fund's distributor, and Frontier Partners, Inc., a consulting/marketing firm that provides marketing services to investment advisers, are majority-owned subsidiaries of Magellan Financial Group Limited ("MFG"), a company listed on the Australian Securities Exchange. MFG Asset Management is also a subsidiary of MFG. Accordingly, Frontegra, Frontegra Strategies, LLC, Frontier Partners, Inc. and MFG Asset Management are affiliates.

A discussion regarding the Board's basis for approving the investment advisory agreement and subadvisory agreement is included in the Fund's annual report for the year ended June 30, 2023.

Management Fees. The Company, on behalf of the Fund, has entered into an investment advisory agreement with Frontegra pursuant to which Frontegra supervises the management of the Fund's investments and provides various administrative services to the Fund. Under the investment advisory agreement, the Fund compensates Frontegra at an annual rate of 0.80% of the Fund's average daily net assets. Frontegra has agreed to waive its management fee and/or reimburse the Fund's operating expenses at least through October 31, 2025, to the extent necessary to ensure that the Fund's total operating expenses (excluding taxes, interest, brokerage commissions, AFFE and extraordinary expenses) do not exceed 0.80% and 0.95% of the Fund's average daily net assets for the Institutional Class and Service Class shares, respectively. The expense cap/reimbursement agreement can be terminated only by, or with the consent of, the Board. The expense cap/reimbursement agreement has the effect of lowering the overall expense ratio for the Fund and increasing the Fund's overall return to investors during the time any such amounts are waived and/or reimbursed. Frontegra is permitted to recoup any expenses or fees it has waived or reimbursed within a three-year period, if the expense ratios in those future years are less than the limits specified above and less than the limits in effect at that future time. The expense cap/reimbursement agreement may have the effect of increasing the Fund's overall expense ratio during any periods where Frontegra recoups previously waived or reimbursed expenses. After expense waivers the advisory fee paid to Frontegra for the Fund's fiscal year ended June 30, 2023, was equal to 0.10% of the Fund's average daily net assets.

MFG Asset Management. MFG Asset Management was organized in 2006 and is located at Level 36, 25 Martin Place, Sydney NSW 2000, Australia. In addition to providing portfolio management services to the Fund, MFG Asset Management serves as investment adviser to other institutional clients. MFG Asset Management also serves as subadviser to two other series of the Company: the Frontier MFG Global Equity Fund and the Frontier MFG Core Infrastructure Fund. MFG Asset Management is an affiliate of Frontegra by virtue of being under common control by MFG. As of September 30, 2023, MFG Asset Management had approximately U.S. \$22.6 billion under management.

Frontegra has entered into a subadvisory agreement with MFG Asset Management under which MFG Asset Management manages the Fund's portfolio, subject to Frontegra's supervision. Under the subadvisory agreement, MFG Asset Management is paid the net advisory fee received by Frontegra less an annual flat fee retained by Frontegra. MFG Asset Management has also agreed to pay for or reimburse Frontegra for, as applicable, any expense reimbursements made by Frontegra pursuant to the expense cap/reimbursement agreement, and all amounts paid by Frontegra to financial intermediaries for sub-transfer agent and other administrative services.

Pursuant to a solicitation agreement, Frontier Partners, Inc. provides consulting and marketing services to, and receives compensation from, MFG Asset Management based on a percentage of investment management fees earned from clients introduced by Frontier Partners, Inc. to MFG Asset Management. Pursuant to a solicitation agreement, Frontegra Strategies, LLC receives compensation from MFG Asset Management based on a percentage of the net subadvisory fees earned from Fund shareholders introduced by representatives of Frontegra Strategies, LLC to the Fund. These arrangements may create an incentive for the referring party to recommend the services of MFG Asset Management or an investment in the Fund based on the compensation received rather than solely based on the client's or shareholder's needs.

FUND MANAGEMENT (continued)

Portfolio Managers. The Fund's portfolio is managed on a team basis by members of MFG Asset Management's Sustainable Strategy Team, Alan Pullen and Hannah Dickinson. The final buy and sell decisions are made by Alan Pullen.

Alan Pullen. Mr. Pullen has served as Portfolio Manager of the Fund since June 2023. Mr. Pullen has ultimate responsibility for the investment decisions for the Fund. He joined MFG Asset Management in 2012. In 2016, Mr. Pullen was appointed Head of the Financials Team and portfolio manager at MFG Asset Management. Prior to MFG Asset Management, Mr. Pullen worked as an analyst and portfolio manager at Maple-Brown Abbott from 2006 to 2012. He worked as an economist at the Reserve Bank of Australia from 1999 to 2006. Mr. Pullen holds a Bachelor of Economics (Honours) from the University of Tasmania.

Hannah Dickinson. Ms. Dickinson has served as Portfolio Manager of the Fund since October 2023. Ms. Dickinson joined MFG Asset Management in 2016 to cover consumer stocks. She became Co-Head of the Franchises team in 2020 and became Sector Head of Franchises and Healthcare in 2022. In 2023, she was promoted to Portfolio Manager in addition to her role as Sector Head. Her previous industry experience includes roles as an analyst in the investment banking division of Moelis & Company from 2015 to 2016 and prior to that, with the valuations team at KPMG from 2014 to 2015. Ms. Dickinson holds a Bachelor of Economics (Honours) and a Bachelor of Laws (Honours) from the University of Queensland.

The Fund's SAI provides additional information about the Fund's portfolio managers, including other accounts managed, ownership of Fund shares and compensation.

Custodian, Transfer Agent and Administrator. U.S. Bank, N.A. acts as custodian of the Fund's assets. U.S. Bancorp Fund Services, LLC serves as transfer agent for the Fund (the "Transfer Agent") and as the Fund's administrator. U.S. Bank, N.A. and U.S. Bancorp Fund Services, LLC are affiliated entities.

Distributor. Frontegra Strategies, LLC (the "Distributor"), 400 Skokie Boulevard, Suite 500, Northbrook, Illinois 60062 acts as the principal distributor of the Fund's shares.

YOUR ACCOUNT

How to Purchase Shares. Shares of the Fund are sold on a continuous basis at net asset value ("NAV"). The Fund's NAV is determined as of the close of trading on the New York Stock Exchange (the "NYSE") (generally 4:00 p.m., Eastern Time) on each day the NYSE is open. The NAV for a class of shares is determined by adding the value of the Fund's investments, cash and other assets attributable to that class, subtracting the liabilities attributable to that class and then dividing the result by the total number of shares outstanding for the class. Due to the fact that different expenses are charged to the Institutional Class and Service Class shares of the Fund, the NAV of the two classes may vary. Your purchase price will be the Fund's NAV next determined after the Fund or an authorized agent, such as a fund supermarket or broker-dealer who is authorized by the Distributor or an affiliate to sell shares of the Fund (collectively, "Financial Intermediaries"), receives your request in proper form. The Fund does not consider the U.S. Postal Service or other independent delivery services to be its agents. Deposit in the mail or with a delivery service does not constitute receipt by the Transfer Agent. A confirmation indicating the details of the transaction will be sent to you promptly. Shares are credited to your account, but certificates are not issued. However, you will have full shareholder rights.

Investments may be made by mail or wire. The investment minimums noted above are waived for investments by qualified employee benefit plans. Investment minimums may also be waived or reduced at the Fund's discretion for certain registered investment advisers, broker-dealers, other financial intermediaries and individuals accessing accounts through registered investment advisers. The Fund reserves the right to change or waive these minimums at any time. You will be given at least 30 days' notice of any increase in the minimum dollar amount of purchases.

YOUR ACCOUNT *(continued)*

Initial Investment by Mail. You may purchase shares of the Fund by completing an application and mailing it along with a check payable to “Frontier Funds, Inc.” to: Frontier Funds, Inc., c/o U.S. Bank Global Fund Services, P.O. Box 701, Milwaukee, Wisconsin 53201-0701. For overnight deliveries, please use 615 East Michigan Street, Third Floor, Milwaukee, Wisconsin 53202-5207. The Fund will not accept payment in cash or money orders. The Fund also does not accept cashier’s checks in amounts of less than \$10,000. To prevent check fraud, the Fund will not accept third party checks, Treasury checks, credit card checks, traveler’s checks or starter checks for the purchase of shares. The Fund is unable to accept post-dated checks, post-dated on-line bill pay checks, or any conditional order or payment. Purchases must be made in U.S. dollars and all checks must be drawn on a U.S. bank. If your check does not clear, you will be charged a \$25 service fee. You will also be responsible for any losses suffered by the Fund as a result. In the event a shareholder is unable to make the Fund whole in such a case, Frontegra will generally be responsible for any losses, with the right to seek indemnification or contribution from other parties. All applications to purchase shares of the Fund are subject to acceptance by the Company and are not binding until so accepted. The Company reserves the right to reject an application in whole or in part.

Initial Investment by Wire. In addition, you may purchase shares of the Fund by wire. Instruct your bank to use the following instructions when wiring funds:

Wire to: U.S. Bank, N.A.
777 E. Wisconsin Ave.
Milwaukee, WI 53202
ABA Number 075000022

Credit to: U.S. Bancorp Fund Services, LLC
Account Number 112-952-137

Further credit to: Frontier Funds, Inc.
Frontier MFG Global Sustainable Fund
(Class of Shares)
(investor account number)
(name or account registration)

If you are making an initial investment in the Fund, before you wire funds, please contact the Transfer Agent by phone to make arrangements with a telephone service representative to submit your completed application via mail, overnight delivery, or facsimile. Upon receipt of your application, your account will be established and a service representative will contact you within 24 hours to provide an account number and to confirm the wiring instructions.

The Fund is not responsible for the consequences of delays resulting from the banking or Federal Reserve wire system. Wired funds must be received prior to 4:00 p.m. Eastern time to be eligible for same day pricing.

Investment through Financial Intermediaries. Alternatively, you may place an order to purchase shares of the Fund through a Financial Intermediary, who may charge a transaction fee for placing orders to purchase Fund shares or have policies or procedures that differ from those set forth in this Prospectus. An order is deemed to be placed when the Fund, or a Financial Intermediary on the Fund’s behalf, receives the order in proper form. Please consult your Financial Intermediary regarding fee information and procedures for purchasing, selling or exchanging shares of the Fund.

YOUR ACCOUNT *(continued)*

Important Information about Procedures for Opening a New Account. The Company, on behalf of the Fund, is required to comply with various anti-money laundering laws and regulations. To help the government fight the funding of terrorism and money laundering activities, Federal law requires all financial institutions, including mutual funds, to obtain, verify and record information that identifies each person who opens an account. Consequently, the Transfer Agent will verify certain information on your account application as part of the Fund's Anti-Money Laundering Program. As requested on the application, you must supply your full name, date of birth, social security number and permanent street address. If you are opening an account in the name of a legal entity (e.g., a partnership, limited liability company, corporation, business trust, etc.), you may be required to supply the identity of the beneficial owner or controlling person(s) of your legal entity prior to the opening of your account. We may also ask for other identifying documents or information to verify the shareholder's identity. Mailing addresses containing only a P.O. Box will not be accepted. Please contact the Transfer Agent at 1-888-825-2100 if you need additional assistance when completing your application.

If we do not have a reasonable belief of your identity, the account will be rejected or you will not be allowed to perform a transaction on the account until such information is received. The Fund also reserves the right to close the account within five business days if clarifying information and/or documentation is not received. If at any time the Fund detects suspicious behavior or if certain account information matches government lists of suspicious persons, the Fund may determine not to open an account, may close an existing account, may file a suspicious activity report or may take other action. Any delay in processing your order will affect the purchase price you receive for your shares. The Company and the Transfer Agent are not liable for fluctuations in NAV experienced as a result of such delays in processing.

In order to purchase shares, you must reside in a jurisdiction where Fund shares may lawfully be offered for sale. Shares of the Fund have not been registered for sale outside of the United States except to investors with United States military APO or FPO addresses. The Fund may not be sold to investors residing outside the United States and its territories, except upon evidence of compliance with the laws of the applicable foreign jurisdictions.

If you purchase shares of the Fund by check and request the redemption of such shares, payment of the redemption proceeds may be delayed for up to 12 days in order to ensure that the check for the investment has cleared. This is a security precaution only and does not affect your investment.

Multiple Classes. The Fund currently offers two different classes of shares: Institutional Class shares and Service Class shares. The different classes of shares represent investments in the same portfolio of securities but are subject to different expenses, which may affect their performance. The classes also differ with respect to their investment minimums. In addition, Service Class shares impose a shareholder servicing fee that is assessed against the assets of the Fund attributable to that class.

Subsequent Investments. You may make additions to your account by mail or by wire. When making an additional purchase by mail, enclose a check payable to "Frontier Funds, Inc." along with the additional investment form provided on the lower portion of your account statement.

Subsequent Investments by Wire. To make an additional purchase by wire, please contact the Transfer Agent to advise them of your intent to wire funds. This will ensure prompt and accurate credit upon receipt of your wire. To make an additional investment by wire, please follow the wire instructions used to open an account.

How to Redeem Shares. You may request redemption of part or all of your Fund shares at any time. The price you receive will be the NAV next determined after the Fund receives your request in proper form, subject to the redemption fee described below if the shares have been held for 30 days or less. Once your redemption request is received in proper form, the Fund typically expects to pay redemption proceeds by check mailed to you within two business days, by wire on the next business day or electronic credit via the Automated Clearing House ("ACH") network within two or three business days. However, where securities have been sold to generate cash for payment of a redemption, your redemption proceeds will not be paid until the first business day after the sales proceeds are received by the Fund, but, in any event, no later than seven calendar days after receipt of a redemption request. Also, the Fund may hold payment of your redemption proceeds until the Transfer

YOUR ACCOUNT *(continued)*

Agent is reasonably satisfied that the purchase check has cleared, which may be up to 12 days. In addition to the redemption procedures described below, redemptions may also be made through Financial Intermediaries who may charge a commission or other transaction fee.

Written Redemption. To redeem shares in the Fund please furnish a written, unconditional request to: Frontier Funds, Inc., c/o U.S. Bank Global Fund Services, P.O. Box 701, Milwaukee, Wisconsin 53201-0701. For written redemption requests sent via overnight delivery, please use 615 East Michigan Street, Third Floor, Milwaukee, Wisconsin 53202-5207. Your request must (i) be signed exactly as the shares are registered, including the signature of each owner and (ii) specify the number of Fund shares or dollar amount to be redeemed. The Transfer Agent may request additional documentation from corporations, executors, administrators, trustees, guardians, agents or attorneys-in-fact. Redemption proceeds may be wired to a commercial bank authorized on your account. If the dollar amount requested to be redeemed is greater than the current value of your account, your entire account balance may be redeemed.

Shareholders that invest through an IRA or other retirement plan must indicate on their redemption request whether or not to withhold federal income tax. Redemption requests failing to indicate an election not to have tax withheld will generally be subject to 10% withholding.

Payment of Redemption Proceeds. Under normal market conditions, the Fund expects to use holdings of cash or cash equivalents or sell portfolio assets to meet redemption requests. Under unusual market conditions such as times of market stress, the Fund reserves the right to make redemptions in kind as discussed below and may enter into a line of credit with a bank or borrow money (subject to the limits in the Fund's investment policy on borrowing) to meet redemption requests.

Purchases In Kind. Shares of the Fund may be purchased "in kind," subject to the approval of Frontegra and/or MFG Asset Management and their determination that the securities are acceptable investments for the Fund and that they have a value that is readily ascertainable in accordance with the Fund's valuation policies. In an in kind purchase, investors transfer securities to the Fund in exchange for Fund shares. Securities accepted by the Fund in an in kind purchase will be valued at market value. In general, an investor transferring securities for shares will recognize a gain or loss, for federal income tax purposes, on an in kind purchase of the Fund, calculated as if the investor had sold the securities for their fair market value and used the proceeds to purchase shares of the Fund.

Redemptions In Kind. The Fund generally pays redemptions in cash, but reserves the right to make a "redemption in kind" (a payment in portfolio securities rather than cash) if the amount you are redeeming is in excess of the lesser of (i) \$250,000 or (ii) 1% of the Fund's assets in any 90-day period. In such cases, you may incur brokerage costs in converting these securities to cash. The Fund expects that while unlikely, any redemption in kind would be made as a pro rata portion of the Fund's portfolio or a representative basket if the redemption is not large enough to distribute a pro rata portion. The Fund expects that any redemptions in kind will be made with marketable securities. However, you would bear any market risk until the securities are converted into cash. For federal income tax purposes, redemptions in kind are taxed in the same manner to a redeeming shareholder as redemptions made in cash. The subsequent sale of securities received in kind may also result in recognized gains or losses for federal income tax purposes.

Redemption Fee. A redemption fee of 2.00% will be charged on shares of the Fund redeemed (including in connection with an exchange) 30 days or less from their date of purchase. The 30-day period during which shares are subject to the redemption fee commences on the day after the shares are purchased. The redemption fee is paid directly to the Fund and is designed to offset brokerage commissions, market impact and other costs associated with short-term trading of Fund shares. For purposes of determining whether the redemption fee applies, the shares that were held the longest will be redeemed first. The redemption fee does not apply to:

- shares purchased through retirement plans in limited circumstances;
- shares acquired through re-investments of Fund distributions; or
- shares redeemed because of death or disability.

YOUR ACCOUNT *(continued)*

The Fund may waive the redemption fee in the case of hardship and in other limited circumstances with respect to certain types of redemptions or exchanges that do not indicate market timing strategies.

Signature Guarantees. Signature guarantees are required in the following circumstances:

- for redemption proceeds sent to any person, address or bank account not on record;
- for requests to wire redemption proceeds (if not previously authorized on the account);
- for redemption requests submitted within 30 days of an address change;
- when changing account ownership; and
- in other situations deemed necessary by the Transfer Agent or the Fund to protect against the possibility of fraud.

A signature guarantee may be obtained from any bank, savings and loan association, credit union, brokerage firm or other eligible guarantor institution, but not a notary public. Non-financial transactions, including establishing or modifying certain services on an account, may require a signature verification from a Signature Validation Program member or other acceptable form of authentication from a financial institution source, such as notarization from commercial banks or brokerage firms.

Account Termination. Your account may be terminated by the Fund on not less than 30 days' notice if the value of the shares in an account falls below \$10,000 for Institutional Class shares and \$1,000 for Service Class shares as a result of redemptions. Upon any such termination, a check for the redemption proceeds will be sent to the address of record within seven calendar days of the redemption. If you hold your Fund shares in a taxable account, termination of your account by the Fund will result in the recognition of a capital gain or loss determined by reference to the adjusted basis of the shares in the account terminated and the NAV of such shares on the date of the termination.

Householding. In an effort to decrease costs, the Fund intends to reduce the number of duplicate prospectuses, supplements and certain other shareholder documents you receive by sending only one copy of each to those addresses shared by two or more accounts, and to shareholders the Fund reasonably believes are from the same family or household. If you would like to discontinue householding for your accounts, please call toll-free at 888-825-2100 to request individual copies of these documents. Once the Fund receives notice to stop householding, the Fund will begin sending individual copies thirty days after receiving your request. This policy does not apply to account statements.

Market Timing Policy. The Fund or Frontegra may determine from the amount, frequency and pattern of exchanges that a shareholder is engaged in excessive trading that is detrimental to the Fund or its other shareholders. Such short-term or excessive trading into and out of the Fund may harm all shareholders by disrupting investment strategies, increasing brokerage, administrative and other expenses, decreasing tax efficiency and diluting the value of shares held by long-term shareholders.

The Board has approved policies that seek to discourage frequent purchases and redemptions and curb the disruptive effects of frequent trading (the "Market Timing Policy"). Pursuant to the Market Timing Policy, the Fund may decline to accept an application or may reject a purchase request, including an exchange, from a market timer or an investor who, in the Fund's discretion in consultation with Frontegra or MFG Asset Management, has a pattern of short-term or excessive trading or whose trading has been or may be disruptive to the Fund. In addition, the Fund reserves the right to reject any purchase, including an exchange, that could adversely affect the Fund or its operations. The Fund, Frontegra, MFG Asset Management and their affiliates are prohibited from entering into arrangements with any shareholder or other person to permit frequent purchases and redemptions of Fund shares.

YOUR ACCOUNT *(continued)*

The Fund monitors and enforces the Market Timing Policy through:

- the termination of a shareholder's purchase and/or exchange privileges;
- selective monitoring of trade activity;
- the 2.00% redemption fee for redemptions or exchanges of shares 30 days or less after their date of purchase (determined on a first-in, first-out basis); and
- regular reports to the Board by the Fund's Chief Compliance Officer regarding any unusual trading activity and any waivers of the short-term redemption fee.

The Distributor or an affiliate has entered into shareholder information agreements with Financial Intermediaries, which enable the Distributor or an affiliate to request information to assist in monitoring for excessive short-term trading activity of individual shareholders within omnibus accounts. Omnibus accounts are accounts maintained by Financial Intermediaries on behalf of multiple beneficial shareholders. In some cases, the Fund may rely on the market timing policies of Financial Intermediaries, even if those policies are different from the Fund's policy, when the Fund believes that the policies are reasonably designed to prevent excessive trading practices that are detrimental to the Fund. If inappropriate trading is detected in an omnibus account, the Fund may request that the Financial Intermediary take action to prevent the underlying shareholder from engaging in such trading and to enforce the Fund's or the Financial Intermediary's market timing policy. There may be legal and technological limitations on the ability of Financial Intermediaries to restrict the trading practices of their clients, and they may impose restrictions or limitations that are different from the Fund's policies. As a result, the Fund's ability to monitor and discourage excessive trading practices in omnibus accounts may be limited.

DISTRIBUTION AND SHAREHOLDER SERVICING ARRANGEMENTS

Shares of the Fund may be offered through Financial Intermediaries. If you purchase Fund shares through a Financial Intermediary, you may be subject to different fees or policies than those set forth in this Prospectus.

Shareholder Servicing Fee. The Company, on behalf of the Fund's Service Class, has adopted a shareholder servicing plan (the "Service Plan"). Pursuant to the Service Plan, the Service Class shares of the Fund pay an annual shareholder servicing fee of up to 0.15% per year to the Distributor for payments to Financial Intermediaries who provide on-going account services to shareholders. Those services include establishing and maintaining shareholder accounts, mailing prospectuses, account statements and other Fund documents to shareholders, processing shareholder transactions and providing other recordkeeping, sub-accounting and administrative services for Service Class shareholders. Service Class shares of the Fund may also make payments to Financial Intermediaries for set-up fees for new funds and/or share classes so that underlying customers of the Financial Intermediaries may receive sub-transfer agent, administrative, recordkeeping, sub-accounting and other non-distribution services.

Payments to Financial Intermediaries. From time to time, the Company or the Distributor enter into arrangements with brokers or other Financial Intermediaries pursuant to which such parties agree to perform sub-transfer agent, record-keeping, shareholder servicing or other administrative services on behalf of their clients who are shareholders of the Fund. Pursuant to these arrangements, the Distributor or Frontegra make payments to Financial Intermediaries for services provided to clients who hold shares of the Fund. In some circumstances, Institutional Class shares of the Fund directly pay the intermediary for performing sub-transfer agent and other administrative services to clients who hold

DISTRIBUTION AND SHAREHOLDER SERVICING ARRANGEMENTS *(continued)*

Institutional Class shares of the Fund through an omnibus account in an amount that is intended to compensate the intermediary for its provision of services of the type that are provided by the Transfer Agent. Service Class shares of the Fund pay a shareholder servicing fee as described above.

The Distributor or Frontegra may pay additional compensation to certain Financial Intermediaries. Under these arrangements, the Distributor or Frontegra may make payments from their own resources, and not as an additional charge to the Fund, to a Financial Intermediary to compensate it for distribution and marketing services, including the opportunity to distribute the Fund. For example, the Distributor or Frontegra may compensate Financial Intermediaries for providing the Fund with “shelf space” or access to a third party platform or fund offering list or other marketing programs, including, without limitation, inclusion of the Fund on preferred or recommended sales lists, mutual fund “supermarket” platforms, other formal sales programs and other forms of marketing support. The amount of these payments is determined from time to time by the Distributor or Frontegra and may differ among such Financial Intermediaries based upon one or more of the following factors: gross sales, current assets, the number of accounts of the Fund held by the Financial Intermediaries or other factors agreed to by the parties. These payments are in addition to any service fees payable under the shareholder servicing arrangements as noted above. In addition, pursuant to a solicitation agreement with MFG Asset Management, the Distributor and its representatives receive compensation for any referrals of shareholders that representatives of the Distributor make to the Fund. The receipt of (or prospect of receiving) such compensation may provide the Financial Intermediary or the Distributor, and their representatives, with an incentive to favor sales of Fund shares, or a particular class of those shares, over other investment alternatives. You may wish to consider whether such arrangements exist when evaluating recommendations from a Financial Intermediary.

EXCHANGE PRIVILEGE

You may exchange all or a portion of your investment between classes or from one Frontier Fund to another Frontier Fund at any time by written request, if you meet the minimum investment requirements for the class and fund into which you would like to exchange, and if the class and fund are open to new investors. Before exchanging your shares, you should first carefully read the Prospectus for the fund into which you are exchanging and consider the tax consequences if you hold your investment in a taxable account. The value of the shares to be exchanged and the price of the shares being purchased will be the NAV next determined after receipt of instructions for exchange in proper form. An exchange from one fund to another is treated, for federal income tax purposes, as a sale of the shares to be exchanged at their NAV and a subsequent use of the sales proceeds to purchase the replacement shares, and if you hold your Fund shares in a taxable account, will result in the recognition of a capital gain or loss determined by reference to your adjusted basis in the shares to be exchanged and the NAV of those shares on the date of the exchange. Exchanges are not tax-free. However, a conversion from one class to another class within the same Fund will not be a taxable transaction.

Exchange requests should be directed to: Frontier Funds, Inc., c/o U.S. Bank Global Fund Services, P.O. Box 701, Milwaukee, Wisconsin 53201-0701. For written exchange requests sent via overnight delivery, please use 615 East Michigan Street, Third Floor, Milwaukee, Wisconsin 53202-5207. If your shares are held in an account with a Financial Intermediary, contact the Financial Intermediary. A Financial Intermediary may impose conditions on exchanges in addition to those disclosed in this Prospectus.

Exchange requests may be subject to limitations under the Market Timing Policy to ensure that the exchanges do not disadvantage the Fund or its shareholders. The Company reserves the right to modify or terminate the exchange privilege upon 60 days’ written notice to each shareholder prior to the modification or termination taking effect.

If you exchange your shares in the Fund for shares in any other Frontier Fund, you may be subject to the redemption fee described above under “Your Account – Redemption Fee.”

VALUATION OF FUND SHARES

Shares of each class of the Fund are sold at their NAV. The NAV for each class of the Fund is calculated using the market value of the Fund's investments and is determined as of the close of trading (generally 4:00 p.m. Eastern Time) on each day the NYSE is open for business. The Fund does not determine NAV on days the NYSE is closed. The NYSE is closed on New Year's Day, Martin Luther King, Jr. Day, Washington's Birthday, Good Friday, Memorial Day, Juneteenth National Independence Day, Independence Day, Labor Day, Thanksgiving Day and Christmas Day. The price at which a purchase order or redemption request is effected is based on the next calculation of NAV after we receive your transaction request in good order.

In determining the Fund's NAV, each equity security traded on a securities exchange, including NASDAQ, is valued at the closing price on the exchange on which the security is principally traded. Exchange-traded securities for which there were no transactions on a given day are valued at the most recent bid price. Securities not listed on a securities exchange are valued at the most recent sale price. Short-term investments maturing within 60 days or less, which are not priced by a pricing service, may be valued by the amortized cost method, which approximates fair value.

The Board has appointed Frontegra as its valuation designee for all fair value determinations and responsibilities, subject to oversight by the Board. Any securities or other assets for which market valuations are not readily available or are unreliable are valued at fair value as determined by Frontegra in good faith and in accordance with procedures adopted pursuant to Rule 2a-5 of the 1940 Act. Consequently, the price of a security used by the Fund to calculate its NAV may differ from the quoted or published price for the same security. The Fund may use fair value pricing if, for example, trading in a particular security is halted and does not resume before the Fund calculates its NAV or the exchange on which a security is traded closes early. Fair value pricing involves subjective judgments and it is possible that the fair value determined for a security is materially different from the value that could be realized upon the sale of that security.

The Fund's securities may be listed on foreign exchanges that trade on days when the Fund does not calculate NAV. As a result, the market value of the Fund's investments may change on days when you cannot purchase or sell Fund shares. In addition, a foreign exchange may not value its listed securities at the same time that the Fund calculates its NAV. If a significant event occurs in a foreign market after the close of the exchange that may affect a security's value, such security may be valued by Frontegra as the valuation designee at its fair value pursuant to the procedures discussed above. The Fund has retained an independent fair value pricing service to assist in valuing foreign securities in order to adjust for possible changes in value that may occur between the close of the foreign exchange and the time at which the Fund calculates its NAV. The fair value pricing service employs quantitative models in determining fair value.

DISTRIBUTIONS AND FEDERAL INCOME TAX TREATMENT

As with any investment, you should consider how your investment in the Fund will be taxed. Changes in income tax laws, potentially with retroactive effect, could impact the Fund's investments or tax consequences to you of investing in the Fund. Some of the changes could affect the timing, amount and tax treatment of Fund distributions made to shareholders. If your account is not a tax-deferred retirement account or other tax-advantaged savings plan (or you are not otherwise exempt from income tax), you should be aware of the following federal income tax implications.

Taxes on Distributions. The Fund makes distributions to its shareholders of substantially all of its investment company taxable income and net capital gain, if any, at least annually. For federal income tax purposes, distributions of the Fund's investment company taxable income (which includes dividends, interest, the excess of any net short-term capital gain over net long-term capital loss, and net gain from foreign currency transactions) generally will be taxable to you as ordinary income whether reinvested in additional Fund shares or received in cash, unless such distributions are attributable to and reported by the Fund as "qualified dividend" income (generally, dividends received by the Fund

DISTRIBUTIONS AND FEDERAL INCOME TAX TREATMENT *(continued)*

from U.S. corporations and certain foreign corporations that are eligible for the benefits of a comprehensive tax treaty with the U.S.) and you satisfy certain holding period requirements. For non-corporate shareholders, such “qualified dividend” income is currently eligible for the reduced federal income tax rates applicable to long-term capital gains.

If the Fund distributes any net capital gain (the excess of net long-term capital gain over net short-term capital loss), then such distributions will be taxable as long-term capital gain, whether reinvested in additional Fund shares or received in cash, and regardless of the length of time you have owned your shares. The Fund will inform shareholders of the federal income tax status of all distributions after the close of each calendar year.

When the Fund makes a distribution, the Fund’s NAV decreases by the amount of the distribution. If you purchase shares shortly before a distribution, you will be subject to income taxes on the distribution, even though the value of your investment (plus cash, Fund shares, or in kind securities received in the distribution, if any) remains the same. The Fund expects that, because of its investment objective and strategy, its distributions will consist primarily of net capital gain. All distributions will automatically be reinvested in shares of the Fund at the then prevailing NAV unless you specifically request that either distributions of investment company taxable income or net capital gain or both be paid in cash. If you elect to receive distributions in cash, and the U.S. Postal Service cannot deliver the check, or if a check remains outstanding for six months, the Fund reserves the right to reinvest the distribution check in your account, at the Fund’s then-current NAV, and to reinvest all subsequent distributions.

The election to receive distributions in cash or reinvest them may be changed by writing to: Frontier Funds, Inc., c/o U.S. Bank Global Fund Services, P.O. Box 701, Milwaukee, Wisconsin 53201-0701. For overnight deliveries, please use 615 East Michigan Street, Third Floor, Milwaukee, Wisconsin 53202-5207. Such notice must be received at least five business days prior to the record date of any distribution.

Taxes on Sales, Redemptions and Exchanges. Your sale, exchange or redemption of Fund shares will generally result in a taxable capital gain or loss to you, depending on whether the sale, exchange or redemption proceeds, including in kind proceeds, are more or less than your adjusted basis in the sold, exchanged or redeemed shares (generally, the amount you paid for the shares). Generally, the capital gain or loss will be long-term if you have held your Fund shares for more than one year and short-term if you have held your Fund shares for one year or less. Any capital loss arising from the sale, exchange or redemption of Fund shares held for six months or less, however, is treated as a long-term capital loss to the extent of any distributions of net capital gain received or deemed to be received with respect to such shares. As discussed above under “Exchange Privilege,” an exchange of Fund shares for shares in any other Frontier Fund generally will have similar tax consequences to a sale or redemption of Fund shares. If you purchase Fund shares (through reinvestment of distributions or otherwise) within 30 days before or after selling, exchanging or redeeming Fund shares at a loss, all or part of that loss will not be deductible and will instead increase the basis of the new shares.

Net Investment Income Tax. In addition to the federal income tax, certain individuals, trusts and estates may be subject to a Net Investment Income (“NII”) tax of 3.8%. The NII tax is imposed on the lesser of (i) a taxpayer’s investment income, net of deductions properly allocable to such income, or (ii) the amount by which such taxpayer’s modified adjusted gross income exceeds certain thresholds (\$250,000 for married individuals filing jointly, \$200,000 for unmarried individuals, and \$125,000 for married individuals filing separately). The Fund’s distributions are includable in a shareholder’s investment income for purposes of this NII tax. In addition, any capital gain realized on the sale, exchange or redemption of Fund shares is includable in a shareholder’s investment income for purposes of this NII tax.

Withholding. Except in cases of certain exempt shareholders, including most corporations, if you do not furnish the Fund with your correct Social Security Number or other Taxpayer Identification Number and certain certifications or the Fund receives notification from the Internal Revenue Service (“IRS”) requiring backup withholding, the Fund is required by federal law to withhold federal income tax from your distributions and redemption proceeds at a rate set under Section 3406 of the Internal Revenue Code of 1986, as amended, for U.S. residents.

DISTRIBUTIONS AND FEDERAL INCOME TAX TREATMENT *(continued)*

Foreign Tax Considerations. Some foreign governments levy withholding taxes against dividend and interest income or assess taxes on capital gains. Although in some countries a portion of these taxes is recoverable, the non-recovered portion will reduce the return on the Fund's securities. The Fund may elect to pass through to you your pro rata share of foreign income taxes paid by the Fund if more than 50% of the value of the Fund's total assets at the close of its taxable year consists of foreign stocks and securities. The Fund will notify you if it makes such an election.

Cost Basis Reporting. The Fund is required to report to certain shareholders and the IRS the cost basis of Fund shares acquired, when the shareholder subsequently sells, exchanges or redeems those shares. The Fund will determine the cost basis of such shares using the average cost method unless you elect in writing any alternative IRS-approved cost basis method. Please see the SAI for more information regarding cost basis reporting.

This section is not intended to be a full discussion of federal income tax laws and the effect of such laws on you. There may be other federal, state, foreign or local tax considerations applicable to a particular investor. You are urged to consult your own tax adviser.

Please see the SAI for more information about taxes.

FACTS

WHAT DOES FRONTIER FUNDS DO WITH YOUR PERSONAL INFORMATION?

Why?	Financial companies choose how they share your personal information. Federal law gives consumers the right to limit some but not all sharing. Federal law also requires us to tell you how we collect, share, and protect your personal information. Please read this notice carefully to understand what we do.		
What?	The types of personal information we collect and share depend on the product or service you have with us. This information can include: <ul style="list-style-type: none">• Social Security number and income• Account balances and account transactions• Transaction history and wire transfer instructions When you are <i>no longer</i> our customer, we continue to share your information as described in this notice.		
How?	All financial companies need to share customers' personal information to run their everyday business. In the section below, we list the reasons financial companies can share their customers' personal information; the reasons Frontier Funds, Inc. chooses to share; and whether you can limit this sharing.		
Reasons we can share your personal information		Does Frontier Funds, Inc. share?	Can you limit this sharing?
For our everyday business purposes— such as to process your transactions, maintain your account(s), respond to court orders and legal investigations, or report to credit bureaus		Yes	No
For our marketing purposes— to offer our products and services to you		No	We do not share
For joint marketing with other financial companies		No	We do not share
For our affiliates' everyday business purposes— information about your transactions and experiences		Yes	No
For our affiliates' everyday business purposes— information about your creditworthiness		No	We do not share
For our affiliates to market to you		Yes	Yes
For nonaffiliates to market to you		No	We do not share
To limit our sharing	You may limit our sharing about you with our affiliates for marketing purposes by calling us (toll-free) at 1-888-825-2100. Please note: if you are a new customer, we can begin sharing your information 30 days from the date we sent this notice. When you are <i>no longer</i> our customer, we continue to share your information as described in this notice. However, you can contact us at any time to limit our sharing. Your choice to limit marketing from our affiliates will apply until you tell us to change your choice.
